We turn complex programs and data into smarter decisions.

7 Cs Solutions LLC Capability Statement

Small Business Agility. Enterprise Reliability.

WHO WE ARE

7 Cs Solutions is a certified Service-Disabled Veteran-Owned Small Business that helps health and public-sector organizations run complex programs and put enterprise data to work. Our leadership has run data platforms and programs inside the Defense Health Agency (DHA), so we know the mission, the systems, and the stakeholders from the inside.

CORE COMPETENCIES

- **Enterprise Data & Analytics.** Warehousing, integration, governance, and data quality, plus business intelligence and analytics that turn raw data into decisions.
- **Program & PMO Operations.** PMP-led programs kept on scope, schedule, and budget, from battle rhythm to executive reporting.
- **Software Development & IT Modernization.** Legacy system modernization, custom application development, and UI/UX design.
- **Agile & DevSecOps Transformation.** Waterfall-to-SAFe transitions, PI Planning, and Solution Trains that speed secure delivery.

PROVEN RESULTS

- **33-day data backlog cleared in 21 days.** Recovered the MHS Data Repository's bulk-extract pipeline after an extended outage, processing 81 batches and finishing 8 days ahead of plan.
- **48.5% faster batch processing (~1.9×).** Pipeline re-engineering saved 4.6 hours per run and reduced manual intervention.
- **3M+ patient identity corrections** across the Military Health System, cutting clinically significant trouble tickets from ~5,000 to ~100 per month.
- **Timely DoD health records to the VA,** delivered to the Veterans Benefits Administration in support of veterans' benefits decisions.

CURRENT PERFORMANCE

MHS Information Platform (MIP) Program Management — DHA EIDS
Program management across data architecture, data quality, and incident management for the MHS Data Repository, which holds claims, pharmacy, and EHR data for 9.5M+ beneficiaries, and for M2, the analytics tool military hospital and clinic managers use to make operational decisions.

FAPNet Modernization — U.S. Air Force Medical Command
Building the minimum viable product, including software development and UI/UX design, for the Family Advocacy Program's enterprise system, which serves 76 offices and military treatment facilities worldwide and about 1,000 users.

DHA ITPSAS
Business intelligence and management analysis support for DHA's enterprise data and solution delivery programs.

WHY 7 CS

- **32 years of uniformed service** in the U.S. Army and U.S. Public Health Service; retired O-6
- **Former Chief of Staff,** DHA Enterprise Intelligence & Data Solutions
- **Clinical + technical credentials:** MPH, MT (ASCP), CPHIMS, PMP
- **Direct access to principals** and rapid mobilization
